Immersive Computing & Interaction Lab, Kyung Hee University **Mar 2026 - Present**
Undergraduate Researcher

- Research interaction techniques for LLMs in virtual reality (VR) environments.
- Participate in English research meetings with researchers from multiple institutions, including Ph.D. students and faculty members.

RESEARCH & PUBLICATIONS

A VR-Based Context Branching for Non-linear Exploration of LLM Conversations
Jiwon Chon*, Sungwon In
Proceedings of the 2026 Korean Computer Congress (KCC), pp. 1757–1759, June 2026
Scientific Poster Presentation, Honorable Mention in the Undergraduate/Junior Paper Competition

PROJECT EXPERIENCE

UX/UI Design

AI Feature Design for the Mobility Service ‘KakaoT’ **Mar 2026 - May 2026**
Team Leader, UX/UI Designer *Seoul, S. Korea*

- Team Project for Student Association UX/HCI Club KHUX
- Led UX research through user surveys (n=102) and in-depth interviews (n=9) to identify user needs and pain points
- Redesigned key user flows and created high-fidelity mobile prototypes for AI features.

Social Media Service Design for Gen Z and Gen Alpha **Sep 2025 - Dec 2025**
Team Member, UX/UI Designer *Seoul, S. Korea*

- Paid Industry-Academia Client Project for Daum, Student Association UX/HCI Club KHUX
- Conducted user surveys and interviews to define the MVP scope and core user requirements.
- Designed end-to-end mobile UI including wireframes and high-fidelity prototypes.

Usability Improvement for ‘Riido’, an IT project management tool **Sep 2025 - Dec 2025**
Team Member, UX/UI Designer *Seoul, S. Korea*

- Paid Industry-Academia Client Project for Startup SWYG, Student Association UX/HCI Club KHUX
- Performed heuristic evaluations, usability testing (n=8), and A/B testing to uncover usability issues.
- Improved the web service by redesigning user flows and creating high-fidelity UI prototypes.

Software Development

Development of a Personal Finance App for Reducing Impulse Spending

Sep 2025 - Feb 2026

Team Member, Frontend Developer

Seoul, S. Korea

- MVP Project for Student Association IT/Coding Club Cotato
- Implemented the frontend for the app's core features using React and TypeScript.
- Collaborated with cross-functional team members to integrate APIs and deliver the MVP.

Development of an Event Service Booking Platform

Feb 2025 - Jun 2025

Team Member, Frontend Developer

Wollongong, Australia

- Group Project for Software Design, 2025-Autumn Semester
- Implemented real-time chat (WebSocket/STOMP), user authentication, review system, and UI.
- Collaborated with backend developers to integrate REST APIs and deliver a scalable booking and communication system.

HONORS

DACEP Scholarship

Mar 2025

(Destination Australia Cheung Kong Exchange Program)

University of Wollongong

Superiority Scholarship (Academic Excellence Scholarship)

Feb 2023

Kyung Hee University

EXTRACURRICULAR ACTIVITIES

Student Association UX/HCI Club KHUX

Sep 2025 - Present

Director, Education Team Leader

- Directed and mentored junior members throughout UX/HCI project development.
- Developed educational materials and published UX articles as the Education Team Leader.
- Contributed to industry-sponsored, MVP, and AI feature proposal projects within multidisciplinary UX/HCI teams.

Student Association IT/Coding Club Cotato 12th

Sep 2025 - Feb 2026

Core Member, Frontend Developer

- Completed React, TypeScript, and web development training through technical study sessions.
- Collaborated with project managers, designers, and backend developers to develop an MVP project as a frontend developer.
- Participated in a hackathon as a frontend developer and received the Excellence Award (2nd Place).
